Students must complete all General Education requirements and all Major requirements. Any acceptable General Education course which is also required in the major may apply to (double-count in) both required areas. Courses common to the areas of World Cultures, Arts and Humanities, and Social and Historical Studies may also double count. However, credit for such courses counts only once toward the total required credits for a degree. See School of HPER Bulletin online at \texttt{http://www.indiana.edu/~bulletin/iub/hper/2010-2012/index.shtml} for links to GenEd course listings.

### Summer 2010  All Grade Physical Education Course Sequence Map

The suggested plan below shows how you might sequence courses to allow for completion of the degree in a four-year period. There is very little flexibility within this plan. Students have NO elective credit hours—if you take elective hours, they will be in addition to the required 124 credit hours. Planning for correct sequencing of course work is extremely important in this major. Students should meet with an advisor at least once each semester to plan their curriculum. Students wishing to complete the health teaching cognate to gain an additional teaching area should use the 5-6 credit hours of PETE electives to take appropriate course work toward the cognate. An additional 24 credit hours is required to complete this cognate (total 30 credit hours).

#### Advising Plan

| —Freshman year | Complete a total of 30 credit hours by the beginning of the third semester. |
| —Sophomore year | 32 credit hours (or complete a total of 62 credit hours by the beginning of the fifth semester). |
| —Junior year | 30 credit hours (or complete a total of 92 credit hours by the beginning of the seventh semester). |
| —Senior year | 32 credit hours (or complete a minimum of 124 total credit hours of specified course work to graduate). |

Complete courses listed in the right column. Special credit in foreign language may be used in humanities requirements. Apply by March 1 of the spring semester of the freshman year for fall admission of the sophomore year to the PETE program. Students who are not admitted at the end of the freshman year will not be able to finish the degree in four years. Must be completed during the freshman year prior to TEP admission

Teacher Preparation – All Grade PE

Description of Program
The Physical Education Teacher Education (PETE) Program prepares students to be successful teachers of physical education. Through their training in this program, graduates make a valuable contribution by promoting healthy lifestyles and vigorous physical activity through school-based physical education programs.

Special Opportunities
At the department level students may participate in the Kinesiology Club. Students are also encouraged to join the Indiana Association for Health, Physical Education, Recreation, and Dance (IAHPERD). Through this professional organization as well as the Department of Kinesiology, students may compete for scholarships and professional recognition.

Careers
Graduates with this degree are prepared to become teachers in school-based (grades K-12) physical education programs and coaches in interscholastic sport programs.
