Students must complete all General Education requirements and all Major requirements. Any acceptable General Education course which is also required in the major may apply to (double-count in) both required areas. Courses common to the areas of World Cultures, Arts and Humanities, and Social and Historical Studies may also double count. However, credit for such courses counts only once toward the total required credits for a degree.

Sport Communication - Broadcast

Visit: http://www.publichealth.indiana.edu/program-areas/sport-communication/index.shtml

Description of Program

The Sport Communication Program reflects the widening opportunities that exist in this field. An increasing amount of sport-related activity is occurring in television, radio, Internet, and print communication. The sport communication emphasis is an interdisciplinary program that provides a strong background in sport with either a broadcast or print specialization.

With the cooperation of the Department of Telecommunications and the School of Journalism, the Department of Kinesiology offers undergraduate programs in sport communication—broadcast and print, leading to the Bachelor of Science in Kinesiology degree. The sport communication-broadcast emphasis concentrates on courses in telecommunications media, such as television, radio, and other electronic communications technologies. Additionally, both specialization areas offer instruction in new media technology, such as blogging, podcasting, and online communications.

The kinesiology curriculum provides the student with an understanding of the science of human movement and the interrelationship among the historical, sociological, and psychological elements of sport. Combining the kinesiology curriculum with the print or broadcast specialization provides for a more thorough background than is possible if the areas are studied separately.

Special Opportunities

Direct experience in the area of sport communication is an important component of this undergraduate major. Through practica, internships, and/or field experiences, students have the opportunity to work and train in a variety of sport and communication related fields. Examples of local, nearby internship opportunities include the Colts, Indiana Pacers and Fever, the Indianapolis Motor Speedway, the Natatorium, AAA baseball at Victory Field, the NCAA Headquarters, and four sport National Governing Bodies.

Specialized advising is provided to assist students with degree planning that allows them to tailor their degree to meet long-term goals. Students are required to meet with an academic advisor at least twice a year.

Career resources are provided through the expertise of a career specialist to assist students in career planning, resume and cover letter preparation, and skill development for the interview process. In addition the Career Center contains a variety of up-to-date and highly accessible resources designed to facilitate long-range decision making and future employment considerations.

Careers

Students completing the Bachelor of Science in Kinesiology with a specialization in Sport Communication will be prepared for entry-level positions in radio, television, athletic or sports information, sports journalism, public and/or community relations, and promotions.

Students may also find employment with semiprofessional and professional sports teams in the area of media relations. Graduates are likely to be knowledgeable in a variety of sport communication applications and suited to diverse employment opportunities.
The suggested plan below shows how you might sequence courses to allow for completion of the degree in a four-year period. Some flexibility within this plan as long as free elective credit hours are not exceeded. All students must meet with an advisor at least once each semester to plan their curriculum prior to registration for the next semester. Use this plan in conjunction with the Sport Communication-Broadcast TAB sheet. The telecommunications minor is included in this course plan.

### Course Sequencing Guide

**First year** 30 credit hours (or complete a total of 30 credit hours by the beginning of the third semester)
