Students must complete all General Education requirements and all Major requirements. Any acceptable General Education course which is also required in the major may apply to (double-count in) both required areas. Courses common to the areas of World Cultures, Arts and Humanities, and Social and Historical Studies may also double count. However, credit for such courses counts only once toward the total required credits for a degree.

**NOTE:** 320 hours field experience also required.

## NOTES:

1. A student needs to average 15 credit hours per semester to graduate in 8 semesters (120 credit hours).
2. Many students reduce their academic-year credits by taking classes in summer. However, it is difficult to get equivalent credit for major course work at other campuses or colleges. A few RPTS courses, usually required core classes, are offered each summer at IUB, usually in the early part (1st 4- or 1st 6-weeks).
3. Unless otherwise noted, courses may be taken either semester.
4. Prior to registering for the professional internship (R497), students must document 320 Hours of practical experience in the leisure industry, for approval by their major’s faculty coordinator. Deadlines for approval of the 320 Hours requirement:
   - For a fall internship: 1 July
   - For a spring internship: 1 November
   - For a summer internship: 1 April
5. The internship (R497) may be taken any term following completion of the required prerequisite courses (R110, R312, and T410). Students commonly complete it during the summer, often following the fourth year. Students completing degree requirements in summer may participate in the May commencement ceremony.

Recreational Sport Management

This major prepares students to assume leadership positions in all types of participatory sports programs, focusing on the management of people and resources in recreational sports while also providing students with a skill set to work in a variety of settings in the sport continuum. Through class practica, projects, internship opportunities, and field experiences, students learn leadership, management, programming, marketing, and evaluation, legal aspects of sport, and communication skills.

Career possibilities include:

- Amateur Athletics with AAU and state games across the country
- Business/industrial sports providing opportunities for a sport programmer in employee recreational sports. There are over 150,000 job opportunities available in approximately 50,000 corporations and industries which spend more than $3 billion a year on recreation for their employees
- The collegiate setting, which offers career opportunities in informal sports, instructional sports, intramural sports, club sports and fitness programming on college and university campuses across the country
- Commercial sports, with positions in such settings as theme parks, health/fitness spas, racquet clubs, and hotels
- Military recreation, with positions worldwide for sport programmers and sport directors in intramural, extramural, informal and club sports are available on all types of military bases--Air Force, Army, Navy and Marine
- Municipal parks and recreation departments, which offer positions in sports programming as many of their recreational offerings are sports related.
- Resort/tourism settings, which offer specialized opportunities in sports to include facility management, programming and operation
- Non-profit agencies, including YMCA's/YWCA's and Boys' and Girls' Clubs, with recreational sport related job opportunities in positions such as sports coordinators and program director

In fall 2000, Newsweek predicted that 50 percent of American jobs will be in leisure and tourism by 2050. The Occupational Outlook Handbook refers to the job outlook in recreation as above average.
