Recreational Therapy
B.S. in Recreation degree (120 minimum credit hours)
2.3 GPA required for admission. 2.0 GPA required for graduation.
Effective for students matriculating summer 2013
PH 133 (812) 855-4711 (RTHPYBSSR)

Students must complete all General Education requirements and all Major requirements. Any acceptable General Education course which is also required in the major may apply to (double-count in) both required areas. Courses common to the areas of World Cultures, Arts and Humanities, and Social and Historical Studies may also double count. However, credit for such courses counts only once toward the total required credits for a degree.

**NOTES:**

1. A student needs to average 15 credit hours per semester to graduate in 8 semesters (120 credit hours).
2. Many students reduce their academic-year credits by taking classes in summer. However, it is difficult to get equivalent credit for major course work at other campuses or colleges. A few RPTS courses, usually required core classes, are offered at IUB each summer, usually in the early part (1st 4- or 1st 6-weeks).
3. Unless otherwise noted, courses may be taken either semester.
4. Prior to registering for the professional internship (R497), students must document 220 Hours of practical experience in the leisure industry and an additional 100 under a CTRS, for approval by RT internship coordinator. Deadlines for approval of the 320 Hours requirement:
   - For a fall internship: 1 July
   - For a spring internship: 1 November
   - For a summer internship: 1 April
5. The internship (R497) may be taken any term following completion of the required prerequisite courses. Students commonly complete it during the summer, often following the fourth year. Students completing degree requirements in summer may participate in the May commencement ceremony.

Recreational Therapy

Through opportunities for direct experience with clients with disabilities, the recreational therapy major prepares students to assume positions as recreation therapy specialists. Using a variety of techniques, including arts and crafts, animals, sports, games, dance and movement, drama, music, and community outings, therapists treat and maintain the physical, mental, and emotional well-being of their clients. Professionals assess individuals' needs, plan and implement specific interventions to meet those needs, and document and evaluate the effectiveness of the interventions. All students graduating from the major are eligible to sit for the National Council on Therapeutic Recreation Certification (NCTRC) examination.

Career possibilities include recreation therapy specialist positions in:
- Acute care facilities
- Adult day care facilities
- Assisted living facilities
- Developmental learning centers
- Public and private medical and psychiatric hospitals
- Long-term and residential care facilities
- Mental health centers
- Community park and recreation departments
- Psychiatric/behavioral health settings
- Physical and substance abuse rehabilitation centers
- Special education programs in schools
- Stress care units

Recreation therapy provides a rare opportunity for students to do therapeutic work with a bachelor’s degree. The Occupational Outlook Handbook refers to the job outlook in recreational therapy as above average.
