Admission

Must have completed an undergraduate degree. Admissions requirements include transcripts, personal statement, resume, and references. Admissions will be reviewed by certificate director Dr. Michael Reece.

Requirements

- 3 SPH-B 589  Social and Behavioral Determinants of Health (spring)
- 3 SPH-B 630  Sexual and Reproductive Health Surveillance (fall)
- 3 SPH-B 632  Sexual Health: Contemporary Discoveries and Controversies (spring)
- 3 SPH-B 634  Sexual Health Research and Evaluation (fall)
- 3 SPH-H 633  Advanced Instructional Methods in Sexual and Reproductive Health (fall)

A maximum of 1 course (3 credit hours) may be replaced by a course from the School of Public Health’s graduate offerings in sexual and reproductive health content areas, pending approval from the certificate director.

Suggested Plan of Study, Fall Matriculation

- During the fall semester of year one, students complete at least SPH-B 630 and, as desired, either SPH-B 633 or SPH-B 634.
- During the spring semester of year one, students complete SPH-B 632 and/or SPH-B 589.
- During the fall semester of year two, students complete SPH-B 633 and SPH-B 634 (if not taken fall one).
- During the spring semester of year two, students complete SPH-B 589 or SPH-B 632.
